INTRODUCTION

Google Analytics is a powerful and indispensable tool for website owners and administrators. It provides valuable insights into website traffic, user behavior, and the effectiveness of your online efforts. By adding Google Analytics to your website, you can gain a comprehensive understanding of how visitors interact with your site, enabling data-driven decisions and continuous improvement. One of the most powerful tools in this endeavor is Google Analytics.

Google Analytics offers a window into the inner workings of your website, providing valuable insights that help you make informed choices about your online presence. This document is your guide to seamlessly integrate Google Analytics into your website, enabling you to unlock a world of data-driven potential.

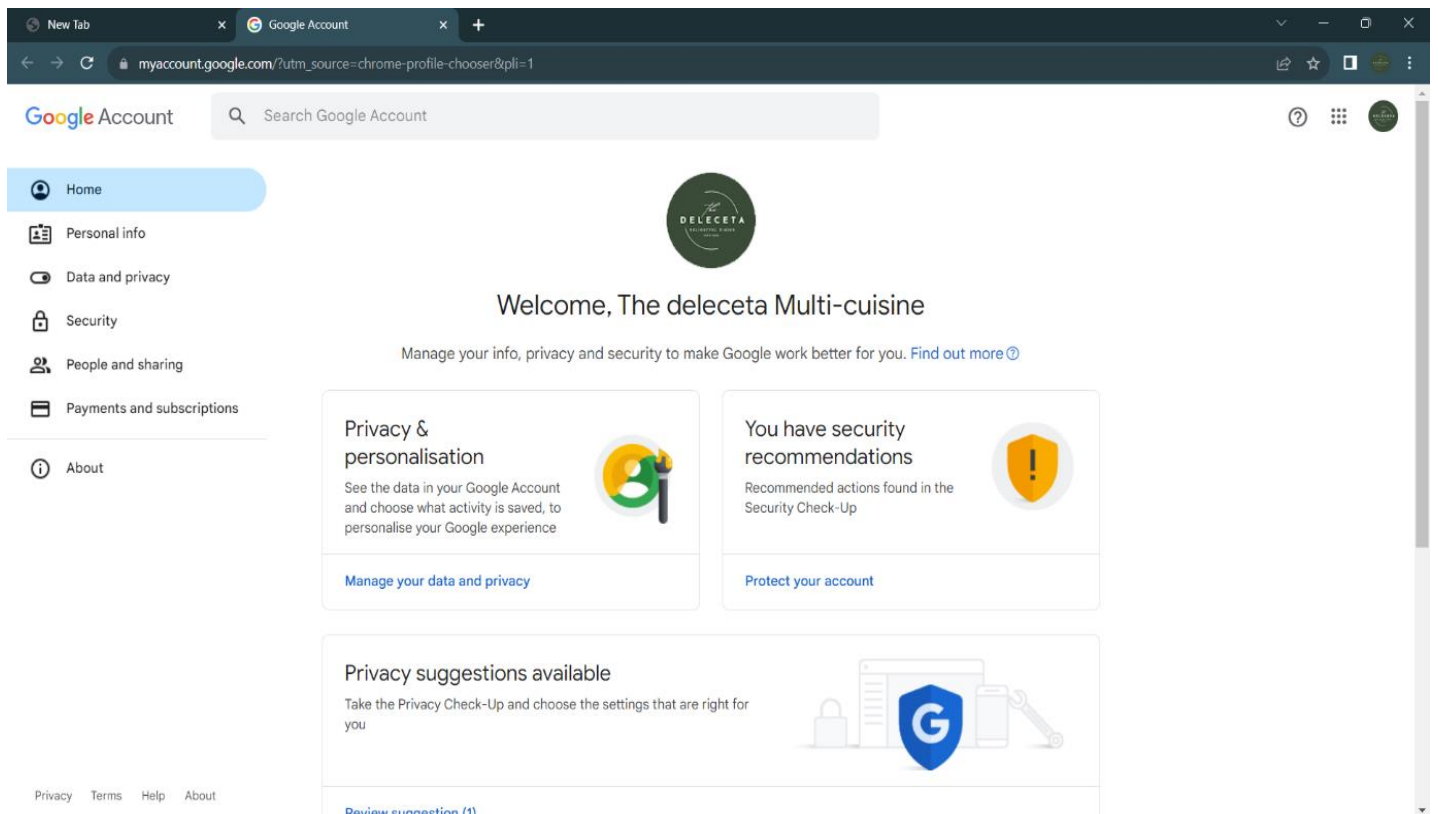

Google Analytics provides a wealth of data, from visitor demographics to traffic sources and conversion rates. This data is the foundation of informed decisions for your website.

Gain insights into This knowledge empowers you to make data-driven decisions, your website's visitors, such as their geographic location, device preferences, and browsing behavior. This information is invaluable for tailoring your content and user experience.

Assess the performance of your marketing endeavors, including ad campaigns, social media efforts, and search engine optimization (SEO). You can measure your return on investment (ROI) and refine your strategies. Define and track specific goals, such as sales, lead generation, or engagement metrics. Identify what's working and what needs improvement.

1.CREATE AN EMAIL IN BRAND NAME

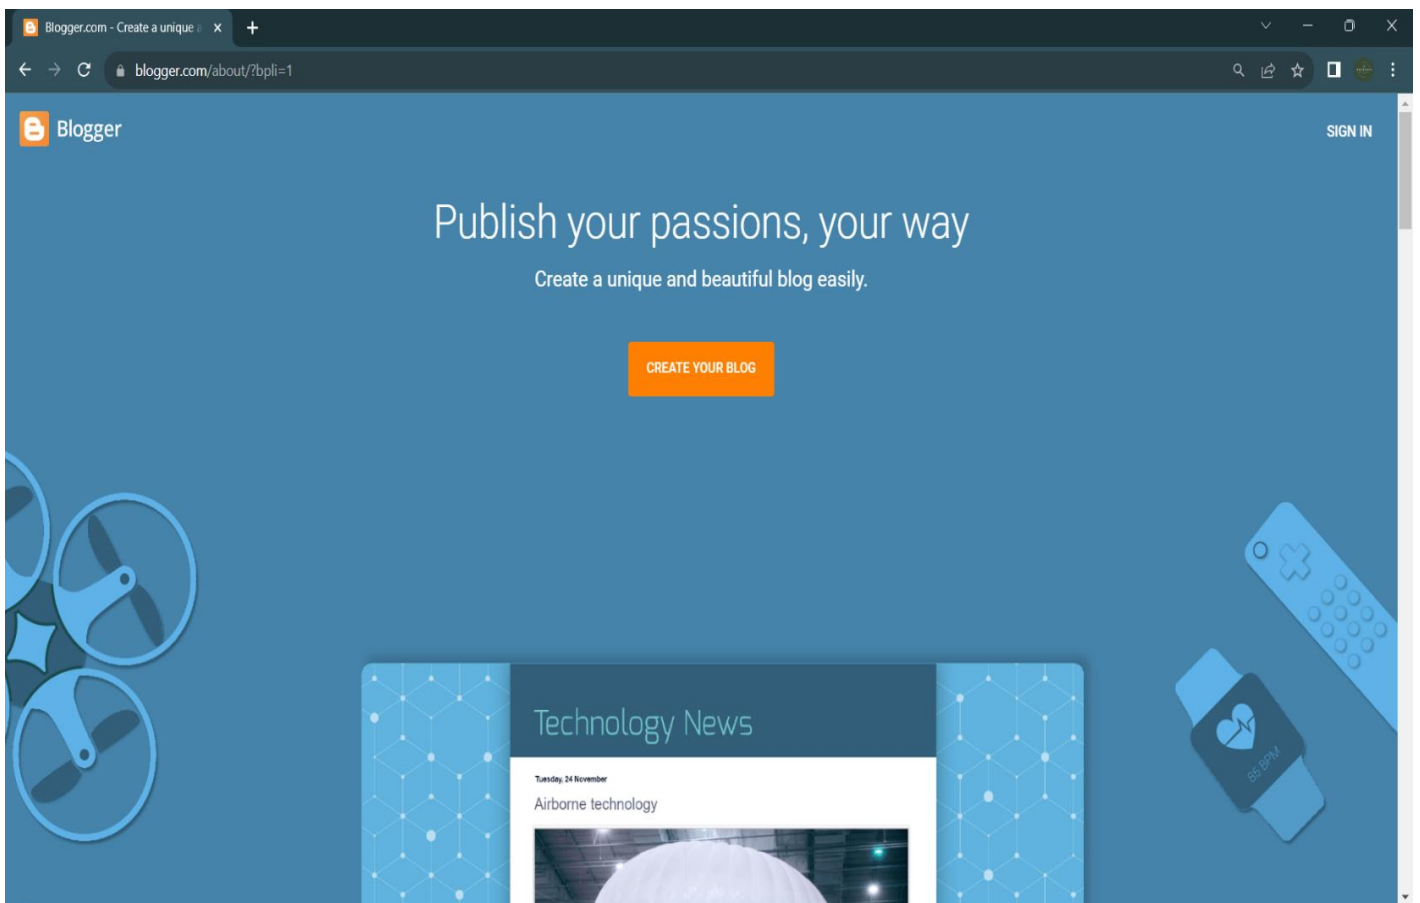

Establish a unique brand name and designate brand-specific email address to begin the Google Analytics setup process. This ensures that your website is associated with your brand identity.

2.CREATE A WEBSITE IN BLOGGER.COM

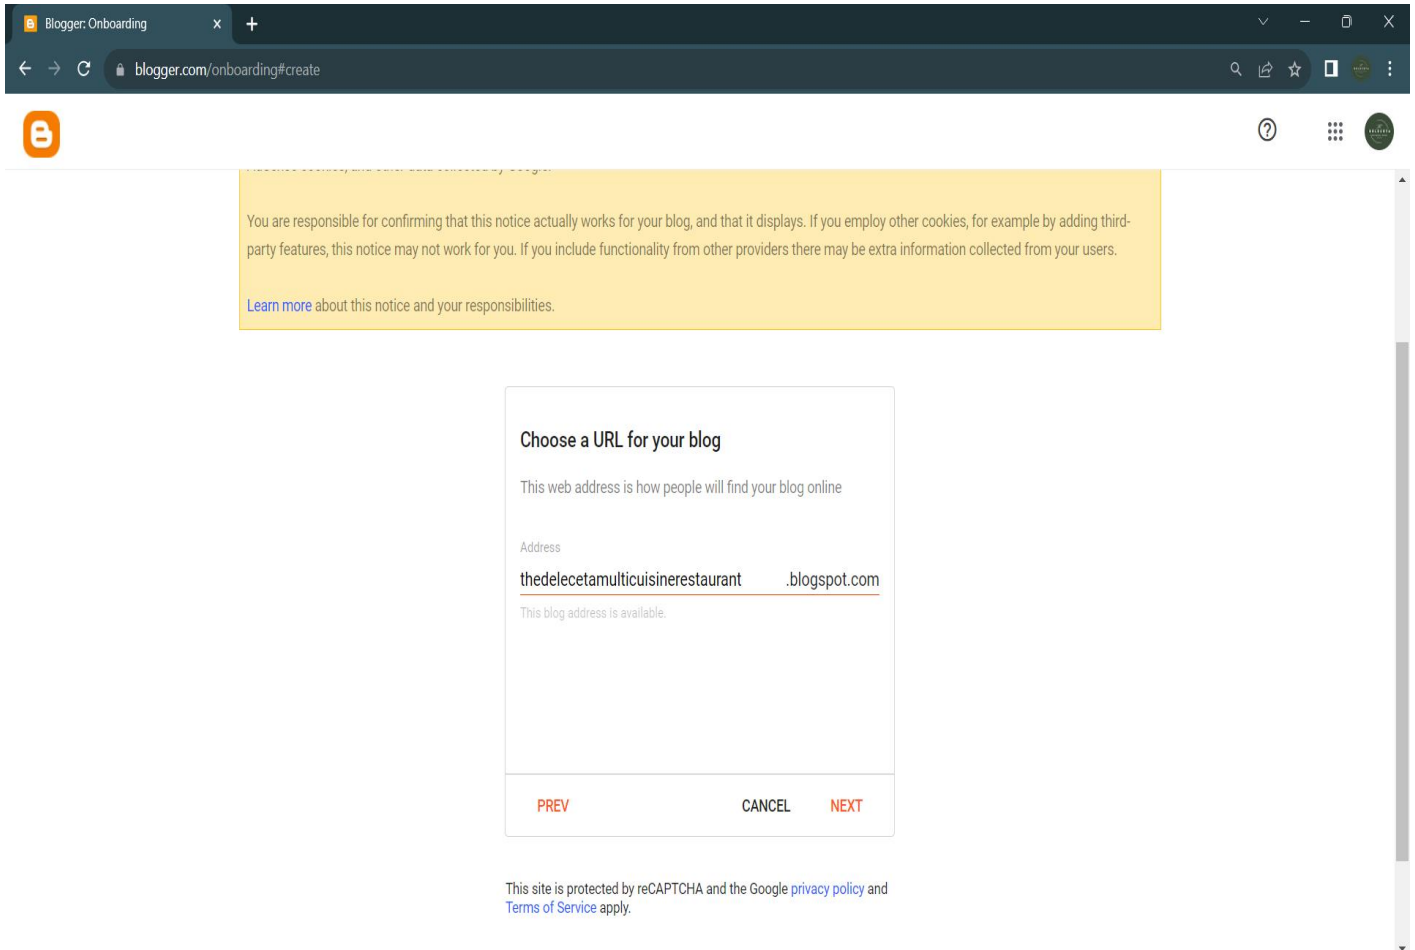

Step1: Create an Account

For create a website in [Blogger.com](https://www.blogger.com) .Accessing the blogger platform click on “Create a Blog” or “Sign in”.

Step 2: Choose a name for Blog

Enter a name for your blog and take your time to choose a name that represents your vision and resonates with your target audience.

The screenshot shows a web browser window with the address bar displaying "blogger.com/onboarding#create". The page features the Blogger logo in the top left and a yellow notification banner at the top stating: "You are responsible for confirming that this notice actually works for your blog, and that it displays. If you employ other cookies, for example by adding third-party features, this notice may not work for you. If you include functionality from other providers there may be extra information collected from your users. [Learn more](#) about this notice and your responsibilities."

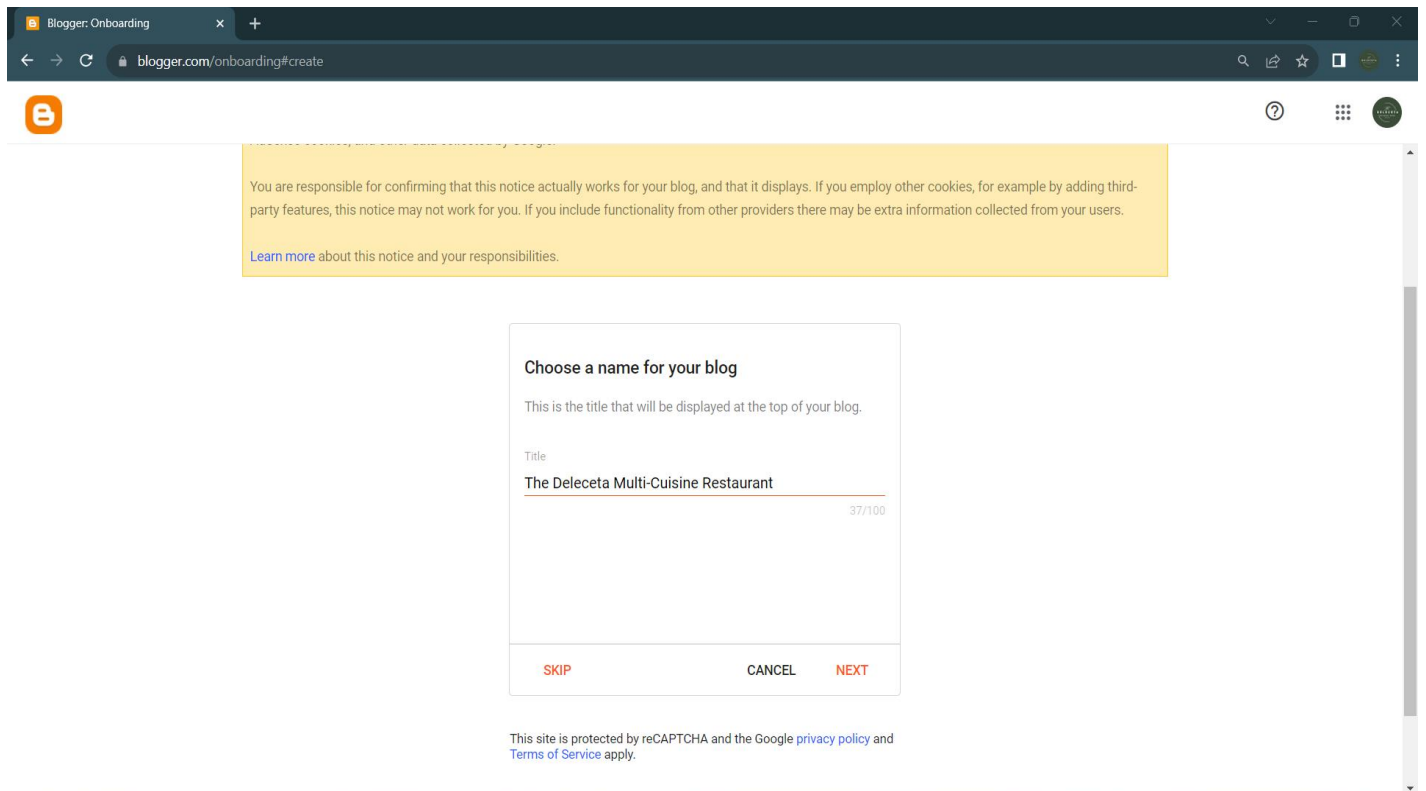

The main content area is titled "Choose a URL for your blog" and includes the instruction: "This web address is how people will find your blog online". Below this, there is a text input field labeled "Address" containing the text "thedelectamulticuisinerestaurant" followed by a ".blogspot.com" dropdown menu. A confirmation message below the input field states: "This blog address is available."

At the bottom of the form, there are three buttons: "PREV" (disabled), "CANCEL", and "NEXT" (active).

At the very bottom of the page, a small footer note reads: "This site is protected by reCAPTCHA and the Google [privacy policy](#) and [Terms of Service](#) apply."

Step 3: Choose a URL for Blog

Enter a URL for your blog according to your Brand. Select the right URL or web address for your blog is pivotal step in establishing your online presence.

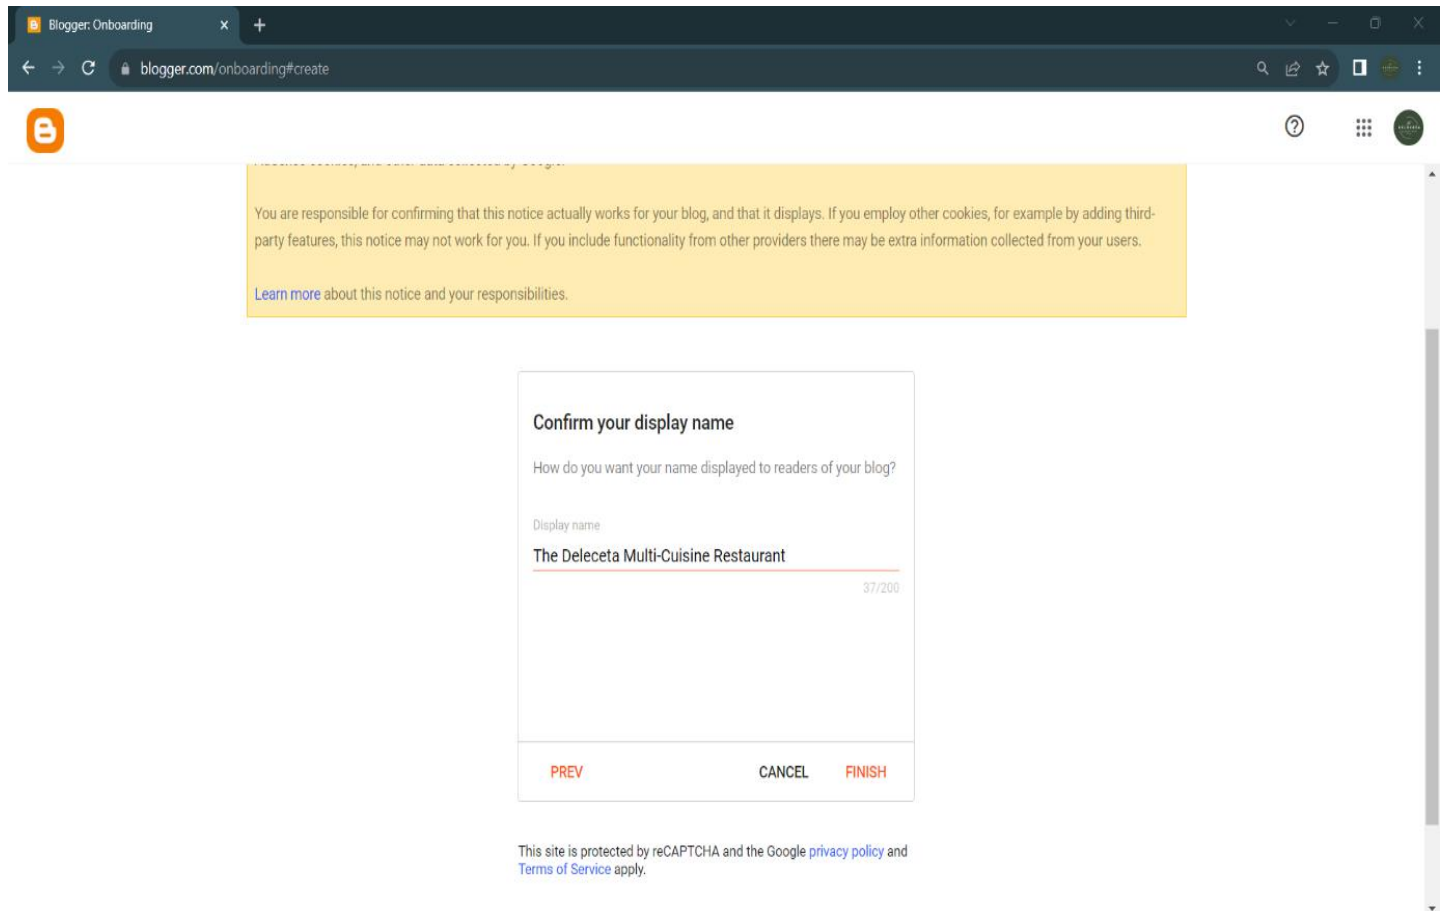

The screenshot shows the Blogger Onboarding interface in a web browser. The address bar displays 'blogger.com/onboarding#create'. A yellow notification banner at the top states: 'You are responsible for confirming that this notice actually works for your blog, and that it displays. If you employ other cookies, for example by adding third-party features, this notice may not work for you. If you include functionality from other providers there may be extra information collected from your users. [Learn more](#) about this notice and your responsibilities.'

The main content area features a form titled 'Choose a name for your blog'. Below the title, it says 'This is the title that will be displayed at the top of your blog.' The form has a 'Title' label and a text input field containing 'The Deleceta Multi-Cuisine Restaurant'. A character count '37/100' is visible at the end of the input field. At the bottom of the form are three buttons: 'SKIP' (in red), 'CANCEL', and 'NEXT' (in red).

At the bottom of the page, a small footer note reads: 'This site is protected by reCAPTCHA and the Google [privacy policy](#) and [Terms of Service](#) apply.'

Step 4: Confirming Display name

Type your display name which display to your blog. A consistent display name across platforms can help establish your personal or professional brand.

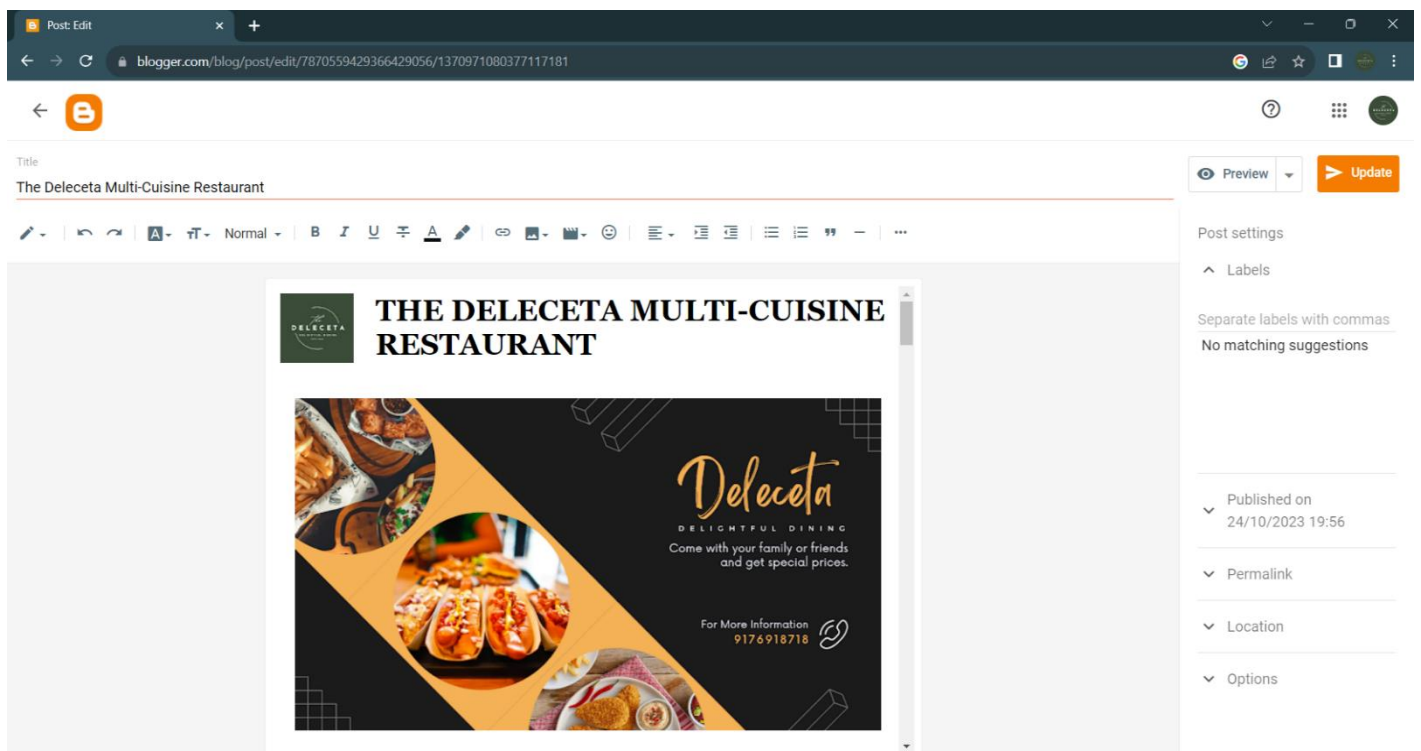

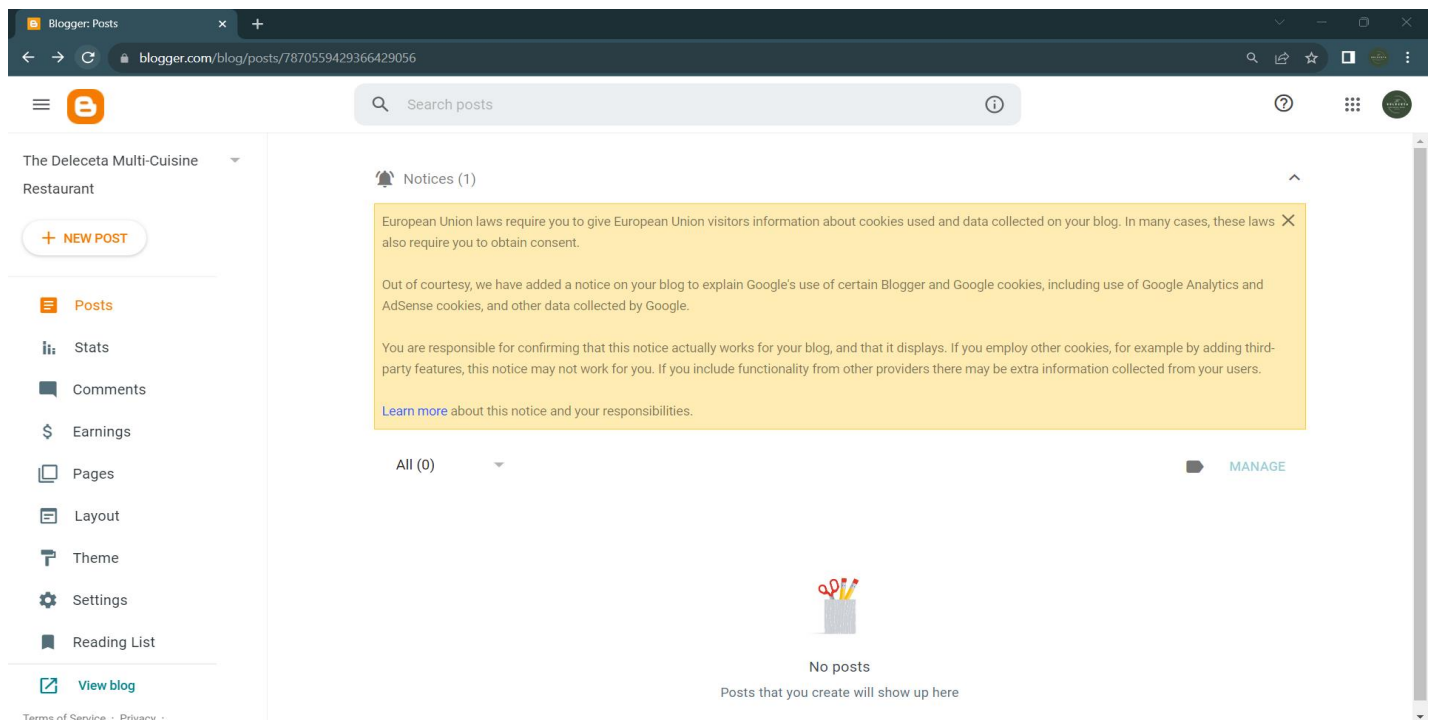

The screenshot shows a web browser window with the address bar displaying "blogger.com/onboarding#create". The page features the Blogger logo in the top left corner. A yellow notification banner at the top states: "You are responsible for confirming that this notice actually works for your blog, and that it displays. If you employ other cookies, for example by adding third-party features, this notice may not work for you. If you include functionality from other providers there may be extra information collected from your users. [Learn more](#) about this notice and your responsibilities."

The main content area contains a form titled "Confirm your display name" with the question "How do you want your name displayed to readers of your blog?". Below the question is a text input field labeled "Display name" containing the text "The Deleceta Multi-Cuisine Restaurant". A character count "37/200" is visible to the right of the text. At the bottom of the form are three buttons: "PREV" (disabled), "CANCEL", and "FINISH" (highlighted in red).

At the bottom of the page, a small text line reads: "This site is protected by reCAPTCHA and the Google [privacy policy](#) and [Terms of Service](#) apply."
